

I Like It

King Los

Travel to the galaxy, I'm chasing
Bittersweet love, temptation
Ain't no category I can place it
I wake up every day just thinking

I hear your voice, get excited
Tell me where you got it from
Hey baby no lie, yeah you fuck, what you doing
Just that special way you do it, yeah that sexy shit you do
Just the way you touch my body, make me wanna touch you too
And I like the way you bang with me
I let you do your thing baby
I respect you, you respect me
And I like it, don't you know I like it baby?

Man everything fake fake love, fake religion
Fake jewellery, fake judge make fake decision
Fake nigga in the street, tryna fake the pimpin'
Pump faking, chump faking, faking women
Fake hair, fake nails, wonder why you only attract fake men? Ugh!
Everybody wanna live a fake life, fake cliques, fake guns, fake vibe
Fake joy, fake pain, fake pride, niggas say they was gon' ride for you, they lie
Niggas say they was gon' die for you, they lie
Niggas say they was gon' fly with you, they dived
That's why I need you body here every night
You the only one that could balance the pain
The only one that could bring the sun out to challenge the rain
The only one that provided, when everybody divided
You the only one that got it, the only one that could remain
You know, we're one and the same, you know you one of a kind
The only one in your lane, the only one in the universe that I'm giving my name
Where the fuck is the name? When the energy that we claim
Coming to synergy and definitly in your brain
Divinity in your veins, trip, girl let this finna be insane, trip
Don't fight it, not everybody get invited
In to my transit, into my worlds, I'm all in they shoes
If they copy me, how could they lose
I'm the pinnacle of how to make moves
How to stay cool, how to be real, how to stay true, how to stay woke when kn owledge ain't true
How to wake up, none of this ain't you
How to wake up, none of this ain't you
