I say life is amazing but nothing should amaze  
Life is amazing but  
Life is amazing but nothing should amaze you  
Hatred is a phase and it shouldn't even faze you  
Hey yo  
My man told me, death ain't nothin' but birth in reverse  
So if you end up hurtin' me first  
I'll throw the hearse in reverse then disperse a verse in reverse without re  
hearsin' it first  
Cause my verse two, hurt you, worse than my first do but my verse three wors  
e than my first two  
So the verse me adverts you versing the virtue  
Remember when I spit that verse in reverse? That verse was killin' me  
You wanna be the first to adverse my versatility?  
Nigga I'm hotter than the devil, with a fever,  
Wearin' a leather and a beater and a sweater while he eatin' a jalapeno faji  
ta,  
With a bookbag full of heat pads,  
A scully and a ski mask with the heat on in the E-  
Class at Exxon with a speed pass  
Best rapper alive, what's that you called me?  
I got 'em saying nobody in rap could guard me  
So I keep something to back and marth me  
In case I gotta throw the mask on and pop like a jabberwokkee  
Somebody tell Jay-Z buy me a gold chain  
I am hip hop, I embody the whole game  
This is lyrical murder; I could body the whole game  
And have rappers at the precinct providing my whole name  
And I'm so good I climb mountains in my downtime  
I write my newfound rhymes on the down climb  
I swim oceans when I'm bored, I'm the last hope  
I in fact wrote that last quote on my backstroke  
That's dope nigga Los is deep  
If this my dream, imagine when I go to sleep  
You ain't shit, cause they never salute ya  
And I'm so far ahead I can actually remember the future  
Each one of my verse is dope  
But I get better every second  
So my best shit the worst shit I ever wrote  
And I'm married to hip-hop, that's my persona  
I had a beat come to me with a kiss on her  
So I jumped on 'er just to let her know what's mine  
You forever mine bitch then I flipped on her  
In other words I don't beat my bitch; I just make the beat my bitch  
See I done lost a couple girlfriends and a couple homeboys but you know I go  
tta keep my bitch  
Thinkin' bout all the things that I loved her through  
Fuck it, life is a bitch and I love her too  
My two bitches, not you bitches  
I officially love the most fly two bitches  
I'm too vicious  
Dark blue GT sky blue dishes like "bye you bitches"  
What would they do without Los?  
Hip-hop just took a deep breath and blew it out slow  
I'm a run a extra lap, while the rest'll just stare  
In other words I am the new breath of fresh air
