

# Make You Fly

King Los

Uh Los, uh  
You think the king in you  
Is bigger than the king in me?  
Be's what is seems  
But everything ain't what it seem to be  
See, the thing in me ain't a fake thing in me  
So nigga I ain't never changin', like Drake's singing key  
Yea I bear, Hug a bear, I sting a bee  
Your girl I wouldn't dare, fuck a bear  
I just sling the Bee-I-t-c-h, I see hate  
But a G make space because I create  
Space between me and these fake fucks in the game  
Yea I'm all about  
All about my bucks and my change  
You know ballin' out, Ballin' out  
Money fallin' out my pockets  
They watch what they jealous of  
She said when I see you wax on my watch  
And she fell in love  
This is it, this is it the timing and all  
The difference between  
Just gettin' over and Climbin' the wall  
My trying efforts, designed my flying methods  
My mind defined presence  
Inclined defines essence  
So with it, Gotta get it in 99 seconds  
Inspiring the un-fly, Providing them fly lessons  
Supplying them my blessings  
They shine in my kind presence  
My presence is a Present  
You kinda behind lesson  
Get the message?

Be grateful my nigga, grateful my nigga  
It's still all love when they hate you my nigga  
Being broke should never break you my nigga  
Cause coming from the bottom make you fly nigga  
Let's Fly, let's fly

Ladies & Gentlemen  
Id like to welcome you all  
The Crown Ain't, I said The Crown Ain't Safe in the hood
