

Swagger Like Us Remix

King Los

Ayo nobody on the corner run circles round' squares
Like my circle cause my circle run circles round' theirs
Lions in my circle form circles round' bears
Cause we circle round' blocks and knock circles out squares
Yeah
You bring your circle out where
When my circle out bitches form circles out there
Square biz they just wanna see math
So we make them try angles like geometry class
Fed boys want us vacate from the corner
Cause my circle push squares like a play-station controllers
I run circles around rappers, can you imagine
I rip rappers then take they circle out like a magnum
I even have sex with sexist women
They want L in they grill like a Lexus emblem
That's real
I ain't never told a tale and I don't brag
I got seven hundred billion dollar bail out swag, nigga
