

Wait For It

King Los

Bitch I'm groovy I put all my chicks in loubi's
Plus I blow that hammer money
Have your honey twist and screw me
Like a phillips screwdriver
Jus copped the wheel a new driver
She popped a pill and blew fire
That means the head was the bomb
Like... tic tic tic tic...
But I'm the only one blowin up
Told her please bring your homies
Don't be the only one showin up
They call me mr "rope her"
She peeped the swag and it's dizzy
Was jus her and her friends
So we did the jack janet chrissy
That's threes company nigga
Bitches fuck we me nigga
You 4 leaf clover these hoes
That ain't got no luck with me nigga
Like uhhhh...

To late for em (late for em)
All they could do now is wait for em
Wait for it, wait for it
Wait for it, wait for it
Now let that bitch
Go go go go go go go go go go

They say my I'm ruthless I got no roof on the coupe in the south
I rock the kinda jewellery these bitches go stupid about
Say my name don't make me come knock every tooth out your mouth
Stand on my money then take a piss on the roof of your house
I'm the opposite of santa clause cadillac diana ross
Ridin with a wheelie like my car real got handle bars
Go shaqs on the truck, kobes on the coupe
Got a bad lil bitch tryna throw a nigga oops that's a pick and roll
She throw it to me I throw it back that's a give and go
Then we gettin low like midgets
Pray ya bitch is prayin bitches dead
Waitin for you rappers to diss me fuck it these niggas scared

Hey tryna hate (hate)
To late for em (late for em)
All they could do now is wait for em
Wait for it, wait for it

Now let that bitch

Now they don't want this piranha
Jus my persona could beat ya
Don't get it twisted I'm gifted
Like Christmas, Hanukkah Easter
Say that bastard bout to drop a classic
And make all these rappers learn
Everybody waitin for it like this bitch a tax return

Um, your bitch was waitin to scope me
She posted all on my block
Like big worm was waitin for smokey
I told her skate with the homie
And got my whole team 8 (figure 8''s skating) (ate)
Then made the bitch wait (weight) like a protein shake
I was weighin my options I had some weight on my back
But ain't no way that I'm stoppin now I'm awake from my nap
Yea I'm a monster I conquer and I'm jus statin the facts
With out no sponsor they call me the most awaited in rap niggga
