

ANIMAL

KiNG MALA

You talk funny
You crave anticipation
It grows it shrinks you down to your bones
You're just an animal
You want money
You crave sophistication but
You're just an animal
You're just an animal

God damn
I love how you scream through the night
God damn
I love how you taste in a fight
And I'm sick I'm sick
I think I'm losing my mind
Sink your teeth love
Be my disease
Fix my mood
It's temporary
I'm just a little uptight
The more that I try
The more that I lose my mind
I think I've broken my eyes
Cuz I can't see the light
I've been hanging upside down again

You talk funny
You crave anticipation
It grows it shrinks you down to your bones
You're just an animal
You want money
You crave sophistication but
You're just an animal
You're just an animal

I can't help but
Lose my mind
When you call me sick
In the middle of the night
Its all so blurry
What did I say
No don't tell me
I couldn't take it
Its so animalistic
I think that you should put me down

You talk funny
You crave anticipation
It grows it shrinks you down to your bones
You're just an animal
You want money
You crave sophistication but
You're just an animal
You're just an animal
