

Hear my out  
Maybe you should  
Shut your mouth  
Figure it out

You're so pretty when you talk less  
Maybe mommy got to your head like  
'You're so special  
Perfect boy  
You deserve to make some noise'

Insufferable  
With your loud opinions  
It's like you're trying to get under my skin  
You're so unbearable  
Like a damn mosquito  
So self important but we know  
You're just a bug  
Buzzing round my head like  
Ahhh  
Ahhhhh ah  
You're just a bug  
Buzzing round my head like  
Ahhh  
Ahhhhh ah

I don't wanna be another fly on your wall  
Wouldn't it be better if you weren't here at all  
Rolled up to the party with a swarm of your friends  
Like another plague  
It's the end of days

Sucking the air  
From the room

Insuffrable  
With your loud opinions  
Its like you're trying to get under my skin  
You're so unbearable  
Like a damn mosquito  
So self important but we know  
You're just a bug  
Buzzing round my head like  
Ahhh  
Ahhhhh ah  
You're just a bug  
Buzzing round my head like  
Ahhh  
Ahhhhh ah
