

# Hurricane

KiNG MALA

I can feel your focus  
You don't notice  
The burns across my skin

You with your poison chalice  
You're kelptomanic  
Gonna take what you can't have

But I can feel you coming  
Coming like a hurricane  
And you won't let me walk away  
So I'm running while I can

I can hear the words  
You don't mean coming out your mouth  
Think I got you figured out  
Gonna shoot me where I stand

You don't know  
I've seen it all before  
And I've been keeping score  
You haven't beat me yet

You don't know  
It leaves me feeling sore  
You wanting more  
It's right onto the next

And I can feel you coming  
Coming like a hurricane  
And you won't let me walk away  
Running while I can

And I can hear the words  
You don't mean coming out your mouth  
I think I got you figured out  
Gonna shoot me where I stand

I don't like the game  
I don't want to play  
You swear that I am safe  
But you will never change

I don't like the game  
I don't want to play  
You swear that I am safe  
But you will never change

And I can feel you coming  
Coming like a hurricane (hurricane)  
And you won't let me walk away  
So I'm running while I can

And I can hear the words  
You don't mean coming out your mouth  
I think I got you figured out  
Shoot me where I stand
