KiNG MALA

In another life
You and I
Living in the suburbs family of five
I'd tighten your tie
In the morning
You'd come home I'd make your drink how you like
I can see it in my mind
I'm your tattooed trophy wife

In another life
You and I we worked out
Got a loft living downtown
You miss New York
Hate LA
But you lie say you like it more now
I can see it in my mind
There's a version of us that's fine

It doesn't matter
I can picture it however I want (however I want)
Can't climb the ladder
To the pedestal I'm keeping you on

The endings identical
I think we're better hypothetical
I think we're better hypothetical
I think we're better hypothetical

In another life
You and I we get bored
I'm hooking up with the girl next door
You're coming home less and working late more
We barely talk anymore
I can see it in my mind
Miserable by 25

It doesn't matter
I can picture it however I want (however I want)
Can't climb the ladder
To the pedestal I'm keeping you on

The endings identical
I think we're better hypothetical

I'm not being cynical
I think we're better hypothetical
I like it when your fictional
I think we're better hypothetical
I'm not being cynical
I think we're better hypothetical
I don't want the original
I think we're better hypothetical
