

LITTLE DEATH

KiNG MALA

I've seen it all
From greater heights
But I'm sinking down once again
To your delight
To touch, to taste, to feel
I am brought beneath your heel again
Oh I'm here again

Stepping outta my dominion
Take the poison with a smile
Love the shape, the composition
Sip that well until it's dry
I know better but god it's been a while
Gimme an inch and I'll let you take the mile

Ooh
Little death
If you're gonna kill me
Could you please do it slowly
Ooh
Little death
Do me a favor
Could you please let me savor
That little death

I should leave
I had my fill
But the need to feed
Calls me still
Oh to crave, to call, to miss
It's just a crumb
It's just a kiss
If it was up to me
I'd lick it clean

Stepping outta my dominion
Take the poison with a smile
Love the shape, the composition
Sip that well until it's dry
I know better but god it's been a while
Gimme an inch and I'll let you take the mile

Ooh
Little death
If you're gonna kill me
Could you please do it slowly
Ooh
Little death
Do me a favor
Could you please let me savor
That little death
