All Things Everywhere

King Missile

I heard about a man who said he could not swim
He could not see me there, and that's where I came in
I told him to reach in forward and don't ever look back
You see the things you want
All the things you lack

You're quiet now, but you don't know what you've seen
You're all things everywhere, you're coming back to me

You say you feel okay, but
That's not what I see
I see you burning through the flames that can't see me

You're quiet now, but you don't know what you've seen
You're all things everywhere, you're coming back to me

I heard about a man who said he could not swim
He could not see me there, and that's where I came in

I could not see me there, and that's where he came in
