

(Why Are We) Trapped?

King Missile

Why are we trapped here in the dark so long?
It's so wet and dark and cold
We've done everything you told us to do
We've done everything you told us to do

Are we going to have to suffer forever?
Why are we trapped here in the dark so long?
We've done everything you told us to do
We've done everything you told us to do

We don't belong here
We were meant to sing
Let us out, let us

We're drowning in quicksand
We're freezing in the water
We hallucinate in the darkness
We're praying for deliverance

We've done everything you told us to do
We've done everything you told us to do

We don't belong here
We want to go out and play
We don't belong here
We were meant to sing
Let us out, let us out
