

Kill Your Pain

King Princess

I've been over the edge
Say it again and I'll take you with me
Let you know how it felt
When I scraped my knees going down this mess
Of sorts
Pacing around you're making your path on my floor
Wasting every minute you get and you say to me

Maybe we should give it ago
It's hot in hell where I want you baby I
Couldn't let you know
I've been scared of the state of things lately
I wanted to
Say to you
Don't be such a mess just kill your pain
I wanted to say to you
Heaven, hell it's all the same

When it's dying down
I'll be looking across that table for any signs of you
Said it with my chest
My daddy's wrong about you and I
Clipping every corner never on the other side
Oh why?
Is getting you off still making you soft?

Maybe we should give it ago
It's hot as hell where I want you baby I
Couldn't let you know
I've been scared of the state of things lately
I wanted to
Say to you
Don't be such a mess just kill your pain
I wanted to say to you
Heaven, hell it's all the same

Wanted to be
Something with wings
Wish I could be
Somethings happening to me

I feel so good right now
