

Serena, don't be sad
I know you're in there, take her back
To defeat this, I made a map
You need a doctor to cut the slack

If I could make it easy for you
If I could make it easy, I would
If I could make you feel that you're good
Maybe you'd believe me, you should

There's an anchor to your past
It's in the writing and it weighs you back
You're a beauty and that's a fact
You have moved me and helped me laugh

So if I could make it easy for you
If I could make it easy, I would
If I could make you feel that you're good
Maybe you'd believe me, you should

If I could make it easy for you
If I could make it easy, I would
If I could make you feel that you're good
Maybe you'd believe me, you should

Not everybody, everybody loves like this
For you
Not everybody, everybody loves like this
I would
Not everybody, everybody loves like this
You're good
Not everybody, everybody loves like this
You should

Not everybody, everybody loves like this
Not everybody, everybody loves like this
Not everybody, everybody loves like this
Not everybody, everybody loves like this
