

## Sunburn

### King Princess

I always do better when it's cold outside  
They say it gets better when it's warm  
But I, but I

I will comfort you wherever you go  
Wherever you go  
I will come  
Cause it feels way too good to bring you down  
To bring you down low, to bring you

I always do better when it's cold outside  
They say it gets better when it's warm  
But I, but I  
I always do better when it's cold outside  
They say it gets better when it's warm  
But I, but I

Fair is fair is fair, I always say  
I want it that way  
I want it that  
I'm too fucking mean to watch what I say  
Four drinks and I'm hating  
Few words of a wasted

I always do better when it's cold outside  
They say it gets better when it's warm  
But I, but I  
I always do better when it's cold outside  
They say it gets better when it's warm  
But I, but I
