

# Hurricane

King's X

At the moment when she knew we couldn't see  
She came up from the ocean, driven by the sea  
Then she kept on hanging round like she would never leave  
In between the wind and rain she screamed

Yeah, just like a hurricane  
That's just like a hurricane  
(Allison)

Yeah, just like a hurricane  
That's just like a hurricane

Thunder clouds and blackouts in the night outside of dreams  
Where rivers ran when there was once a stream  
If we can walk on water well it's too hard to perceive  
And you know it's even harder to believe

Yeah, just like a hurricane  
That's just like a hurricane  
(Allison)

Yeah, just like a hurricane  
That's just like a hurricane

Yeah, just like a hurricane  
That's just like a hurricane  
(Allison)

Yeah, just like a hurricane  
That's just like a hurricane

Yeah, just like a hurricane  
That's just like a hurricane

Yeah, just like a hurricane  
That's just like a hurricane
