

I...

I remember the last time I saw you  
You looked so alive  
Everything seemed right  
I couldn't stay, the sun was almost down  
I had so far to go and I didn't know oh that

You said you were tired then you went away  
Up into the sky  
You said you were tired then you went away  
Up into the sky  
Yeah

I...

I got the news after the party  
I was on the road, I couldn't get back home to say goodbye  
And see everybody again to realize  
We all have to fly  
We all have to...

You said you were tired then you went away  
Up into the sky  
You said you were tired then you went away  
Up into the sky

Up into the sky

We all have to fly

You said you were tired then you went away  
Up into the sky  
You said you were tired then you went away  
Up into the sky  
(Up into the sky)

You said you were tired then you went away  
Up into the sky  
You said you were tired then you went away  
Up into the sky
