Open My Eyes

King's X

When will the time come
(Maybe it got scared away)
I try to find it
(Guess it slipped away)
Open my eyes

I try to fake it
(What is this it will be)
Go find a place where
(Where somebody's found a piece)
Open my eyes

What does it take to get to the point
Where you want to kill someone
(You want to kill someone)
Where is that place
(Oh lord)
That line you have to cross
(That line you have to cross)
When you want to kill someone

And when my ears ring
(There's always something)
Can't stop what's coming
(Only that I want to live)
Open my eyes

To beat the sickness
(Playing like there's nothing wrong)
Oh I'm gonna take it
('Cause it will make you strong)
Open my eyes

What does it take to get to the point
Where you want to kill someone
(You want to kill someone)
Where is that place
(Oh lord)
That line you have to cross
(That line you have to cross)
When you want to kill someone

Open my eyes
Open my eyes
Something is falling out of disguise

Open my eyes
Open my eyes
Something is falling out of disguise
Open my eyes
Open my eyes
Something is falling out of disguise

(Open my eyes)
What does it take
(Open my eyes)
To get to the point

(Something is falling out of disguise)
Where you want to kill someone
(You want to kill someone)

(Open my eyes)
Where is that place, oh lord
(Open my eyes)
That line you have to cross
(Something is falling out of disguise)
Where you want to kill someone
