

## Vicious Circle

Kingcrow

Lying down watching the next TV show just to silence my mind  
Find me there, trying to run after things that I don't even want

Somehow I really need to be told that I'm on the right side  
Tell me this, give me a fight on the screen and then someone to blame

I can't keep going through with this farce, farce  
What they say... I don't get, I don't get, I don't get

Can't carry on, this loop brings me down, down  
All they say... looks the same

Voices, noises

Lying down watching the next TV show just to fill up this void  
Find me there, looking for answers in faces I don't really know  
(What's behind those never-ending smiles)

I'd like to take it out on someone to erase all this fear  
Can't be me, anger and envy and beer and a remote control

I can't keep going through with this farce, farce  
What they say... I don't get, I don't get, I don't get

Can't carry on, this loop brings me down, down  
All they say... looks the same

Voices, noises
