

# Break Down The Wall

Kingdom Come

They do not know my face  
They tell me everytime that I'm to young for life  
But I need a taste  
And I cannot wait until they say it's right  
I'm gonna leave tonight  
And then I won't let go, the streets will show  
I will run the light  
Let them try to tell me no no no

They're gonna knock on you  
They're gonna knock on you  
You know it's true

You, me, now,  
I say we can break down the wall  
You, and me,  
I say we can break down the wall

I will not play this game  
I cannot sympathize with their dollar eyes  
'Cause they're all the same  
And I cannot wait, I'm gonna leave tonight  
Tell me it ain't right  
I just won't let go, the streets will show  
I'm gonna run the light  
Let them try to tell me no no no

They're gonna knock on you  
They're gonna knock on you  
You know it's true

You, me, now,  
I say we can break down the wall  
You, and me,  
I say we can break down the wall

You, me, now,  
I say we can break down the wall  
You, and me,  
I say we can break down the wall

I say we can break down the wall  
I say we can break down the wall
