

# Religion Needs No Winner

Kingdom Come

Being burned by the flame  
I believe it's not the same  
A sign of the time  
It's a very dangerous game  
I simply can't ignore  
What's causing so much war  
Religion's no excuse  
For all the damned abuse

We're shedding blood in vein  
So intense, so much pain  
The truth we cannot see  
An illusion of being free

Believe in something good  
You definitely should  
Wanna change it, make a deal  
Get back to what is real

Cry out - start to conquer your doubts  
(Reach out - love is showing you how)

Religion - needs no winner  
White pigeon - can't be the sinner
