Religion Needs No Winner

Kingdom Come

Being burned by the flame
I believe it's not the same
A sign of the time
It's a very dangerous game
I simply can't ignore
What's causing so much war
Religion's no excuse
For all the damned abuse

We're shedding blood in vein So intense, so much pain The truth we cannot see An illusion of being free

Believe in something good You definitely should Wanna change it, make a deal Get back to what is real

Cry out - start to conquer your doubts
(Reach out - love is showing you how)

Religion - needs no winner White pigeon - can't be the sinner
