

Rough Ride Rallye

Kingdom Come

Indecisive, where you're going
Haven't got a dime

Hyper active, still not knowing
Need a hand to guide

You don't need no mercy - just a helping hand
Get your mind back steady - climbing up the ramp
Looking down and shaggy - wasting time my friend
It's been a rough ride rallye - But it is not the end

Wanna fly, with blurry eyes
Ain't the way to go

Caught in strife, angry mind
Made the bad unfold

You don't need no mercy - just a helping hand
Get your mind back steady - climbing up the ramp
Looking down and shaggy - wasting time my friend
It's been a rough ride rallye - But it is not the end
