

## Afterglow

Kingfishr

I see it now, the little things, how they get magnified  
The second look, the subtle move, we live behind the eye  
But I was always yours you know  
Staring down the afterglow  
All I have are scars to show  
For all of my love

For all the times I missed the ways that you were lost to me  
It took a while, when I awoke was when the truth became the ene  
my  
But I was always yours you know  
Staring down the afterglow  
All I have are scars to show  
For all of my love

But you can't see that I can't be alone  
Cause your heartbeat doesn't chase me no more  
For all of my love  
Could you ask for more  
Than all of my love

And you can't see that I can't be alone  
Cause your heartbeat doesn't chase me no more  
For all of my love  
Could you ask for more  
Than all of my love  
All of the words they start to fade  
Calling the wolves we couldn't tame  
For all of my love
