Don't say I fell in love  
I fell in love alone  
Please don't say that I bled for us  
I bled for us on my own

I should have asked you twice  
Caught in your auburn eyes  
Fate is a losing game  
Like ash running through my veins

Are you out there where my dreams run wild?  
I swear you were all I ever saw within my mind

Don't say I fell in love  
I fell in love alone  
Please don't say that I bled for us  
I bled for us on my own

Lost in the cedar wood  
Bruised and misunderstood  
Slaves to the poison lights  
I'm still asking 'bout you all the time

Are you out there where my dreams run wild  
I stared as the dark came rolling over your reply

Don't say I fell in love  
I fell in love alone  
Please don't say that I bled for us  
I bled for us on my own

And all we had was a great divide  
And all I saw was the other side  
Oh my love never found the time  
Oh my love was it a fault of mine?

Don't say I fell in love  
I fell in love alone  
Please don't say that I bled for us  
I bled for us on my own

Don't say I fell in love  
I fell in love alone  
Please don't say that I bled for us  
I bled for us on my own
