

# Don't Come Over

Kingmaker

Something has come over  
I can't make sense of the things I see  
My bloodshot eyes can't see behind

Someone's got it in for me  
And I just don't like the air I breathe  
Around you - Who'd want to?

Someone has been using me  
I wonder how low they'll steep  
I bet its low low low  
They'll get lower by the day

So don't come over until its all over  
So don't come over until its all over  
Could you Could you

Only you could explain to me  
The amazing joke of being born  
But now you're gone it just feels all wrong

I never want to be enticed  
Please come back - I need your advice  
I feel low low low  
I'm getting lower by the day

So don't come over until its all over  
Could you Could you

You should hear yourself  
The boy who wants to be used  
You're at home a planet of prostitutes  
Lay back and take the strain  
Hang onto anything?

I always seem to be low low low  
I'm getting lower by the verse

So don't come over until its all over  
So don't come over until its all over  
Could you Could you
