

Look. At. Me.

Kings Kaleidoscope

Hard pace, hard times
Long waits, no signs
Praying in line
Fail me it's fine

Lord I'm begging for something
Pray for peace and get nothing
Are you fixing the paradigm?
Or willing me out of mind?
Just say something
I'll try trusting

Hollow crying
Follow trying
Swallow dying
Look at me
Hollow crying
Follow trying
Swallow dying
1, 2, 3

Fine, fine, fine
Now or never
Time, time, time
Thou forever

I feel gutted
You've healed nothing
Just say something
I'll try trusting
Hollow crying
Follow trying
Swallow dying
Look at me
Hollow crying
Follow trying
Swallow dying
1, 2, 3

Make me a believer
Looking up to go on
Make me a believer
Tell me what I really want

Make me a believer
Taking my placebo's
Make me a believer
Tell me what I really want

Make me a believer
Looking up to go on
Make me a believer
Tell me what I really want

Make me a believer
Taking my placebo's
Make me a believer

Tell me what I really want
