

## On to the Light (The Rush, Pt. 3)

Kings Kaleidoscope

We know where we're going, We know where we're going  
We know where we're going, We know where we're going  
We know where we're going, We know where we're going  
We know where we're going, We know where we're going

Hey!  
Come the casted away!  
Into the night  
Sinners with sight  
On to the light  
Soaring! (Soaring!)  
Sailing! (Sailing!)  
On to the dawn  
Forever free  
Where the heavens bend and plead  
Where the saints and angels sing  
"On to the dawn, the King of all kings!"

We know where we're going, We know where we're going  
We know where we're going, We know where we're going  
We know where we're going, We know where we're going  
We know where we're going, We know where we're going

Hey!  
Don't look back now!  
Don't you look down!  
Glory! (Glory!)  
Courage! (Courage!)  
Come and see the star ahead  
Come and see the broken fed  
Citizens and Saints of God  
Holy, righteous, ratchet squad!

We know where we're going, We know where we're going  
We know where we're going, We know where we're going  
We know where we're going, We know where we're going  
We know where we're going, We know where we're going!  
We know where we're going, We know where we're going  
We know where we're going, We know where we're going  
We know where we're going, We know where we're going  
We know where we're going, We know where we're going!
