

Rule My World

Kings of Convenience

You set yourself above
That all forgiving god
You claim that you believe in
Your kind is gonna fall
Your ship is sinking fast
And all your able men are leaving

Only someone
Who's morally
Superior can possibly
And honestly deserve
To rule my world

I talk before I think
You shoot before you know
Who's in your line of fire
So somehow we're the same
We're causing people pain
But I stand and take the blame
You scramble to the night

Only someone
Who's morally
Superior can possibly
And honestly deserve
Only someone
Who's morally
Superior can possibly
And honestly deserve

To rule my world (10x)

Explain me one more time
When they kill it's a crime
When you kill it is justice
