

# Every Everywhere

King's X

Paradise  
Captured light  
Heaven  
Heaven  
Ever bright  
Colored night  
The whole world is crying for love  
Every, everywhere

Close one eye  
Make you cry  
Heaven  
Heaven  
Cinderland  
Take my hand

The whole world is crying for love  
Every, everywhere

The whole world is crying  
For love

The whole world is crying for love  
(The whole world)  
Every, every where, every, every where  
(Every, every, every, every where)  
The whole world is crying for love  
(The whole world is crying for love)  
Every, every where, every, every where
