

The Train

King's X

Step up and step aboard, your seat is to the left
Leave all your bags and tighten up your metal belt

Last time aboard the train that goes around the world
(Last time aboard the train)
Last time aboard the train that goes around the world
(Around the world)

You leave us all behind, you start to feel the pain
(Last time aboard the train...)
Don't try to take the ride, sit back and let it rain
(Last time aboard the train...)

Last time aboard the train that goes around the world
(Last time aboard the train)
Last time aboard the train that goes around...

Flying... around the world... flying
Flying... around the world... flying

Last time aboard the train that goes around the world
(Last time aboard the train)
Last time aboard the train that goes around the world
(Last time aboard the train)

Last time aboard the train that lives inside my world
(Last time aboard the train)
Last time aboard the train I'm going 'round the world
(Around the world)
