

# We Were Born To Be Loved

King's X

I could shout from a rooftop how I really feel  
Do you really want to know, do you really care  
I could silently scream so you never hear

Somebody said you must rise above it all  
We were born to be loved

How the screaming changes when the meaning hits your ears  
Do you really, do you really wanna know  
Can you count the reasons why we have so many fears

Somebody said you must rise above it all  
We were born to be loved  
Somebody said read the writing on the wall  
We were born to be loved

A big heart, lonely eyes  
A child plays with toys to soon to realize  
To stop playin' take it all inside  
All he wanted was love  
He remembers how that nobody cared  
He was alone with everybody there  
Took a chance and got outta there  
All he wanted was love  
The mouth of the fool was a whip on his back  
He's got the scars to prove it  
A broken heart, a matter of fact  
But he knows how to use it  
Happy endings are not just for TV  
Broken hearts  
Don't lose one piece of the puzzle  
And The Beatles said all you need is love

I could point the finger but there's too much inside here

Somebody said you must rise above it all  
We were born to be loved  
Somebody said read the writing on the wall  
We were born to be loved
