And I know that you know I can feel your disease
I can feel that you don't love me

You burn, you burn the same as before
S-E-N-T-I mentality
You know, it makes no difference in reality

And I know that you know I'm a hundred degrees
If fever's a goal it's a breeze
And I know that you know I can feel your disease
I can feel that you don't love me

I can feel that you don't love me
Can feel that you don't love
Feel that you don't love me
Can feel that you don't love

And I know that you know I'm a hundred degrees
If fever's a goal it's a breeze
And I know that you know I can feel your disease
I can feel that you don't love me (I can feel that you don't love me)
Can feel that you don't love (I can feel that you don't love)
Can feel that you don't love me (Can feel that you don't love me)
Can feel
