

Come Home With You

Kip Moore

What a night
There's lovers on the left and to the right
Tangled up beneath the dancefloor lights
Everybody's got somebody
What a shame
You're all alone just sippin' on champagne
Lookin' like a picture in a frame
And no one here has even got your name

We all know what it feels like
When a hungry heart gets cold
And barely gettin' through the night gets old
And you look like you need someone
But darlin' I do too
Is it alright if I come home with you

If you don't mind
Well I'll sit down here and talk with you while
You can tell me your story, I'll tell you mine
We can drink and laugh and listen to the band
And maybe once we're tipsy we can dance
And everyone will think that I'm your man
Let's take a chance

'Cause we all know what it feels like
When a hungry heart gets cold
And barely gettin' through the night gets old
And you look like you need someone
But darlin' I do too
Is it alright if I come home with you
Yeah you
With you
Yeah you

It's gettin' late
And girl I know that look there on your face

'Cause we all know what it feels like
When a hungry heart gets cold
And barely gettin' through the night gets old
And you look like you need someone
But darlin' I do too
Is it alright if I come home
No I don't wanna be alone
Is it alright if I come home with you
With you
Yeah you
