

Neon Blue

Kip Moore

Man, I've been feelin' like an outlier
Some outsider
Struggling to find my own way
Standing in a crowd of new places
Old faces
Sure ain't like them old-school days

When a friend was a real one
Girl was a sweet one
I could hang my hat on something strong
Tell me how'd I get so far from home

Guess the world just don't wait
On no cowboy like me
Wants to lock down
Needs to be free
Blowing in the wind
Like an ol' tumbleweed
Don't know where I'm goin'
But that's where I'll be
With a beer in my hand
Gettin' lost in some town
And the joint's on fire
'Cause I'm burnin' it down
Used to give a damn now I try not to
I just keep on lookin' into the neon blue
Into the blue

One time I hopped on that hot train
In the fast lane
Ran it right straight in the ground
Now I just ride on this slow one
While I burn one
Take in the sights and the sounds

'Cause it's gone keep on spinning
I'll keep on grinnin'
Hell, I guess you get use to the pain
'Cause it all starts to feel just the same

Guess the world just don't wait
On no cowboy like me
Wants to lock down
Needs to be free
Blowing in the wind
Like an ol' tumbleweed
Don't know where I'm goin'
But that's where I'll be
With a beer in my hand
Gettin' lost in some town
And the joint's on fire
'Cause I'm burnin' it down
Used to give a damn now I try not to
I just keep on lookin' into the neon blue

Into your heart
But I miss you wherever you are

Guess the world just don't wait
On no cowboy like me
Wants to lock down
Needs to be free
Baby, I sure hope you're doing alright
But here I go, here I go up in this light
With a beer in my hand
Gettin' lost in some town
And the joint's on fire
'Cause I'm burnin' it down
Used to give a damn now I try not to
I just keep on lookin' into the neon blue
Into the blue
Into the blue
Into the blue
Just keep on looking
Into the blue
