

# Area Code

Kira Kosarin

Six months of sending texts into my phone, my phone (hey yeah)  
And now I'm finally here in your time zone, your time zone (yeah)

So why you go askin for pics?  
You know that you could come through and be gettin your fix in person  
But personally  
I don't think you live up to your name  
I think you're the best at runnin games  
Baby won't you say it to my face

Distance gives you confidence  
But you can't back up none of it  
Showed up in your area code and where did you go  
You can't back it up  
I came to your continent  
What happened to your confidence  
Showed up in your area code  
Now you can't back it up  
You can't back it up

It was all hype in the DMs  
But you never come thru in the PM  
You ain't even at work it's a weekend  
And I'm lyin in the bed you should be in  
It's your loss and  
I don't come here often

Why you go askin for pics?  
You know that you could come through and be gettin your fix in person  
But personally  
I don't think you live up to your name  
I think you're the best at runnin games  
Baby won't you say it to my face

But you can't back up none of it  
Showed up in your area code and where did you go  
You can't back it up  
I came to your continent  
What happened to your confidence  
Showed up in your area code  
Now you can't back it up  
You can't back it up

You can't back it up  
You can't back it up

You can't back it up
