

## Crazy's Your Type

Kira Kosarin

I see you out with her  
Looking like some déjà vu  
You always pick the girl  
That's always gonna play with you

I thought you ditched the crazy bitch but then you got another  
I know you love her naked, but that doesn't mean you love her  
It's easy to mistake it when you're underneath the covers  
But when she shows her true colors

Don't you act surprised  
This happens to you every time  
Don't come asking why  
We all know that crazy's your type

Told you when I met her  
That she isn't any better  
The last chick you messed with  
Didn't teach you lessons  
Body like a 10 but it's no coincidence  
She use it as a weapon
