

# Take This Outside

Kira Kosarin

Boy I see you making those eyes  
Won't deny  
That I like  
The way that you been throwing me vibes  
So tonight  
Don't wanna hide  
I think we should take this outside

Meet me in the garden  
Tell me if you're about it  
Forget all about the party and  
Let's get our own started  
I'm over it inside  
So let take this outside

Vision is a little cloudy  
Come tell me if you're all about it  
The party, we could do without  
I'm over it inside  
So let's take this outside

(Vision is a little cloudy  
Come tell me if you're all about it  
The party, we could do without)  
I'm over it inside  
So let's take this outside

Slip out the back  
You should grab a lighter and a bottle of jack  
We'll be subtle about it  
I don't wanna go another minute without it  
If you're down  
Hit me up  
I can meet you out front

I think we should take this outside  
Meet me in the garden  
Tell me if you're about it  
Forget all about the party and  
Let's get our own started  
I'm over it inside  
So let take this outside

Vision is a little cloudy  
Come tell me if you're all about it

So let's take this outside

(Vision is a little cloudy  
Come tell me if you're all about it  
The party, we could do without)  
I'm over it inside  
So let's take this outside

Out, out, outside yeah  
Out, out, outside yeah

Out, out, outside yeah  
I'm over it inside so let's take this outside

Meet me in the garden  
Tell me if you're about it  
Forget all about the party and  
Let's get our own started
