

Heart Safe

Kirko Bangz

Shawty said she wanna vibe with me right now (Right now)
No destination, wanna slide with me right now (Right now)
She tell me that she need a break, I'm on the way
I'm switching lanes on 610, 288
Top ten, she got a baller, he ballin'
The money problems that she had, he didn't solve them
But when it comes to her heart, she be calling him
Rest in peace my nigga, Nip, yeah, I'm all in

Yeah, ayy
Two white cups, you can lean on my shoulder
Your nigga want smoke, I'm the type that don't fold up
You say you don't blow, but these Backwoods get rolled up
Why you let these sucka niggas play you?
Why you let that nigga treat you like you ain't you?
Knowing damn well you the reason for this level up
You got your swag, got your stuff, got your bezel up
You killing all these other hoes, no competitors

I don't know why all you dealing with is heartbreak (No)
Got you a house and got your car paid (Oh)
But he don't never keep your heart safe (Oh)
And it got me like, I don't know why
Why you singing in the background? (Oh)
Why you always gotta back down? (Oh)
Every time we talk, I'm hearing sad sounds (Oh)

Didn't wanna break away, but I had to
Didn't wanna let you go, but I had to
Toxic love be the worst when you really on the rise, now
Tryna find some peace in my downtime
Ain't that what you supposed to do?
So why I'm tryna find it in her, you, and you
When I needed you the most, I swear you didn't come through
I had to realize it's me and only me, and not you
'Cause you couldn't stand through
I hope you find what you looking for one day (One day)
I know my heart prolly closed on this one-way
Just make sure you do what you didn't for me, now
Just glad to see that they finna get what I built on
On, on, nah, yeah

I don't know why all you dealing with is heartbreak (No)
Got you a house and got your car paid (Oh)
But he don't never keep your heart safe (Oh)
And it got me like, I don't know why
Why you singing in the background? (Oh)
Why you always gotta back down? (Oh)
Every time we talk, I'm hearing sad sounds (Oh)
