

# U Know What That Mean

Kirko Bangz

I done came down you know what that mean  
I done came up you know what that mean  
And girl I'm about to put some player shit  
On your mind right now  
And if you ever thought I had it  
Swear I got it right now

I done came down you know what that mean  
I done came up you know what that mean  
Man I'm about to put some real shit  
On your mind right now  
And if you ever thought I had it  
Swear I got it right now

I'm like a toiling fishing pole  
When it come to that real  
Cause I ain't never had no time  
To debate on it  
And Niggas asking about my grind  
And they question my skill  
Like will I ever see an album  
With his name on it  
I got a journal full of questions  
I don't answer no more  
Energy for showing love  
That I don't channel no more  
I'm trynna see when I went left  
Right away from my dreams  
I even thought what ima do  
If I ain't rapping no more  
I fell in love with a college girl  
And she put it all on the line  
Put it all and I fucked it all up  
But that's the type of girl  
That I need when this shit is all done  
Cause right now, right now  
I can only focus on one thing  
And this game ain't built for niggas in love

I done came down you know what that mean  
I done came up you know what that mean  
Man I'm about to put some player shit  
On your mind right now  
And if you ever thought I had it  
Bet I got it right now

I done came down you know what that mean  
I done came up you know what that mean  
Man I'm about to put some real shit  
On your mind right now  
And if you ever thought I had it  
Swear I got it right now

Every time I have a dream  
It's about knowing ahead  
And then hating on every nigga  
That probably took it from

Everything is what it seems  
It's exactly what you think it is  
All my old bitches stopped looking for me  
Now I got my mind right  
Not to mention I got this 9 tight  
Not to mention it's on my lap at the stoplight  
I'm heading to meet my nigga Heart in the limelight  
And that's the same night that everything switched  
Lost my bitch cause niggas in the club taking pictures of me  
I always been the nigga that let bitches make examples of me  
Cause I never gave a fuck about what people thinking of me  
The whole time I'm talking to this  
Bitch she got a camera on me  
After that I'm thinking to myself  
That was just a moment  
5 hour difference from our girl  
She still slept lonely  
And as for that bitch shit she used to fuck the homie  
That's if you wanna get to know me

I done came down you know what that mean  
I done came down you know what that mean  
I done came down you know what that mean  
I done came down you know what that mean  
I'm bout to come down  
I'm coming down right now  
Stop blowing up my phone  
I'm Coming down right now  
Say girl stop tripping I'm coming down right now  
Just chill in the lobby I'm coming down right now
