

Highlight Zone

Kissin' Dynamite

No start
No end
Gonna go around the bend
Now something greater takes control
No thoughts
No time
Walking on the finest line
Let's get it on and let it roll

It looms on the horizon
The ascending of a might
That takes us on a roller coaster ride
This is the highlight zone
Let's ride a hurricane we never rode before
This is the highlight zone
Jump on our thunderbird, what are you waiting for?
This is the highlight zone

No doubt
Free fall
Not a compromise at all
Just feel the wild wind on your face
No pain
No lies
Nothing but the fear that dies
Let's get away and join the race

It looms on the horizon
The ascending of a might
That takes us on a roller coaster ride
This is the highlight zone
Let's ride a hurricane we never rode before
This is the highlight zone
Jump on our thunderbird, what are you waiting for?
This is the highlight zone

This is the highlight zone
Let's ride a hurricane we never rode before
This is the highlight zone
Jump on our thunderbird, what are you waiting for?
This is the highlight zone
This is the highlight zone
This is the high, high, highlight zone
