## **Supersonic Killer**

## **Kissin' Dynamite**

He spreads fear and terror He was never ever seen The phantom killer's clever Unpredictable and mean

Master of disaster You are in his demon eyes You can run but he is faster You can hide but he is sly

(Bridge) Sooner or later He will come to start the fight Speeding and wheeling In the night

(Chorus) He´s a super - sonic- super sonic killer Super Sonic - Killer

Fingers made of razors Mystic twinkle in the shade With his supersonic laser And his heavy metal blades

Dashing through the nightlife Flying high to shoot you down Is what the super killer likes As he starts another round

(Bridge) Sooner or later He will come to start the fight Speeding and wheeling In the night

(Chorus) He´s a super - sonic- super sonic killer Super Sonic - Killer
