

## We Want More

Kissin' Dynamite

Waking up hung over  
Driving endless ways  
On and on forever  
No idea of time and place

Keep the madness going  
To hell and back we ride  
The grass is always greener  
On the other side

(Bridge)

We've licked the blood, there's no doubt anymore  
We've licked the blood, to win this crazy war

(Ref)

We want more - more, more, more  
Rock n Roll as destination  
'Till we die  
We want more - more, more, more  
To receive complete salvation  
'Till we die - We want more

Disaffected faces  
Driving you insane  
Have no clue 'bout nothing  
This way is full of pain

Harder, faster, louder  
We're always on the run  
Occupied completely  
This game has just begun

(Bridge)

We've licked the blood, there's no doubt anymore  
We've licked the blood, to win this crazy war

(Ref)

We want more - more, more, more  
Rock n Roll as destination  
'Till we die  
We want more - more, more, more  
To receive complete salvation  
'Till we die - We want more
