

What Year Are We In

Kitten

Sometimes I wonder
What year am I in?
Do you know?
Seriously, do you know?

I'm driving down the roadway in my parents' Subaru
The feeling's been the same since they were kids in '62
You listen to the speakers, it says that we should screw, so
What year (what year) what year are we in?
Marching down the street, you see the cardboard in our hands
It didn't work the first time so we're doing it again
Our parents saved the children, I still don't understand, damn
What year (what year) what year are we in?

What year, what year are we in?
What year, what year are we in?

Electric cars and Soylent, yeah let's party in the Zoom
Still digging through my records, ripping samples in my room
Just listen to the speakers, I bet you think I'm cool, bro
What year (what year) what year are we in?
Days are disappearing and the end is coming fast
The ozone catching bullets, I don't think we're gonna last
Conspiracy with theories got you listen and you laugh, damn
What year (what year) what year are we in?

What year, what year are we in?
What year, what year are we in?

I just wanna play sweet rock 'n' roll
I just wanna play sweet rock 'n' roll
I just wanna play sweet rock 'n' roll (sweet rock 'n', sweet rock 'n' roll)
I just wanna play sweet rock 'n' roll (sweet rock 'n', sweet rock 'n' roll)
I just wanna play (sweet rock 'n', sweet rock 'n' roll)
I just wanna play (sweet rock 'n', sweet rock 'n' roll) sweet rock 'n' roll
Sweet rock 'n' roll

I'm starring in the movie that I'm streaming in my room
I've seen this one before, but now I'm watching season two
Here comes another sequel, it's never something new, oh
What year, what year are we in?
