

Moonlight Massacre

Kitty in a Casket

Love is a lie
You can't deny
That's the reason
Why all my boyfriends die

I'm a mutant zombie girl
From another gruesome world
Crawl out night by night (oh)

Try to find love of my life
World's as sharp as a knife
Now I go insane...

Hungry for love and sick of pain
I, I need to eat brain

Moonlight massacre,
Feast the night away
Moonlight massacre
Moonlight (moonlight)
Massacre (massacre)
Moonlight massacre

It's another gloomy night
I see him, yeah, he's the right
But he's not alone

It's the girl on his side
I should be the dying bride
Let's go and kill tonight

I cut off her neck (her blood spills out)

Moonlight massacre,
Feast the night away
Moonlight massacre
Moonlight (moonlight)
Massacre (massacre)
Moonlight massacre

I want to feel your heart beat inside of me,
Inside of me, where it should be (rip it out, rip it out),
Your blood tastes like sweet cherry coke
When it runs down my throat

Moonlight massacre,
Feast the night away
Moonlight massacre
Moonlight (moonlight)
Massacre (massacre)
Moonlight massacre

Moonlight massacre,
Feast the night away
Moonlight massacre
Moonlight (moonlight)
Massacre (massacre)

Moonlight massacre
