

According To My Heart

Kitty Wells

According to my heart
You're the one for me
The one love of my life
Is here when you're with me

If someone stole your love
My heart would beat no more
For you're the only one
My heart is longing for

Though I don't know the reason
Why my dreams don't turn out right
Still I'll keep listening to my heart
Who knows someday they might

For according to my heart
The future will be bright
And every day I pray
That my heart knows what's right

Though I don't know the reason
Why my dreams don't turn out right
Still I'll keep listening to my heart
Who knows someday they might

And every day I pray
That my heart knows what's right
