

My Used To Be Darling

Kitty Wells

I'm almost ashamed now for people to know
That you are the one I once worshipped so
For they didn't know you as you were then
My used-to-be darling, I can't trust you again

My used-to-be darling, once loving and sweet
Today you're no more than a stranger to me
Too far you've drifted in wild, reckless fun
My used-to-be darling, just look what you've done
As I see you tonight in the dim lights of shame
I remember how proudly I once spoke your name
As you touch your lips to that bottle of wine
I remember the thrill when they used to touch mine
