

Old Records

Kitty Wells

Old records bring back memories pictures bring back tears
Do you ever think of me after all these years
I found a stack of old records that we used to listen to
And there beside the records were pictures of me and you
So I dusted off the records and played them one more time
I listened and looked at the pictures and almost lost my mind
Cause old records bring back

Like the songs on the records we were a big hit of yesterday
And when you held me in the pictures I didn't know I didn't know
you'd fade away
But old records bring back
