

## Only One I Ever Loved I Lost

Kitty Wells

When I lost your love dear I lost my everything  
The sunshine from my life has disappeared  
The night we said our last goodbye I wished you happiness  
Then I walked away so darkness would hide my tears  
Without the face of the loved one this world's a lonesome place  
True love is smarty cheap at any call  
I'm doin' to be a failure though the future brings wealth and fame  
For the only one I ever loved I lost  
If I find fame and fortune what good would get to me  
I couldn't fool my heart it knows me best  
There's one love in every lifetime mine belongs to you  
And that means more to me than all the rest  
Without the face of the loved one...
