

Searching

Kitty Wells

Searching, I've spent a lifetime darling searching
Looking for someone like you
Dreaming, in all my dreams I dream
That someday I'd find someone like you

Other loves have come my way
But they were not for me
Tell me that you're here to stay
Don't ever set me free

'Cause I've been searching
I've spent a lifetime darling, searching
Looking for someone just like you

Other loves have come my way
But they were not for me
Tell me that you're here to stay
Don't ever set me free

'Cause I've been searching
I've spent a lifetime darling, searching
Looking for someone just like you
